Education

VIT Bhopal University

Expected June 2026

B.Tech. in Computer Science & Engineering (GPA: 8.57 / 10.00)

- **Relevant Coursework:** Web Development (HTML, CSS, JavaScript, React.js, Node.js), Data Structures & Algorithms (Java)

Projects

Opinion-io | *React.js, Node.js, MongoDB, Python, Flask*

April 2024

- Developed a web application that provides summarized opinions on various topics by leveraging AI technology to analyze YouTube content.
- Led the frontend development of the user interface using ReactJS, ensuring a smooth and intuitive user experience.
- *Deployed : opinion-io.vercel.app*

CCMS | *EJS, JavaScript, Node.js, MongoDB*

June 2024

- Built a Complaint Management System to streamline the process of lodging and managing complaints within an organization.
- Optimized MongoDB queries to handle large data volumes efficiently and ensure system responsiveness.
- Designed and implemented a user-friendly interface for easy complaint management.
- *Deployed : ccms-2xda.onrender.com*

E-Commerce Demo | *React.js*

December 2023

- Developed a frontend demo for an e-commerce platform, showcasing product listings and responsive design.
- Ensured that the application is fully responsive, providing a seamless experience across various devices.
- Focused on delivering an intuitive navigation experience for users browsing products.
- *Deployed : ecom-omega-eosin.vercel.app*

Words Matter | *HTML, CSS, JavaScript, EJS, MongoDB*

June 2023

- Developed a web application that serves as both a social platform and a personal diary, allowing users to express their thoughts, share them with others, and securely store their private entries.
- Designed and developed both frontend and backend components, focusing on data encryption and user privacy.
- Implemented robust encryption techniques to protect user data from unauthorized access.
- Created a clean and intuitive user interface to enhance the overall user experience.
- *Deployed : words-matter.onrender.com*

Technical Skills

Languages: HTML, CSS, JavaScript, Java, C, C++, Python

Technologies & Tools: Node.js, React.js, Bootstrap, Express.js, MongoDB, Node Package Manager (NPM)

Certificates

- The Complete Web Development Bootcamp by Udemy
- Java Basics by HackerRank
- Python Basics by HackerRank
- Cloud Computing by NPTEL

Additional

Extracurricular

- Technical Team Member in Igniter's Club (September '23 – May '24)

Soft Skills

- Problem Solving
- Time management
